CRX-Themes for Sony ERICSSON P900: - T231 or sz225, which are based 09e8f5149f

ThemeEditor For Sony Ericsson P900 V1.0 PC/Windows

ThemeEditor for SE P900 is the first edition of the applications, which allow you to create your own themes on the phone. The software features a straightforward user interface, which is built right into the application. In addition, you have full control of every field in the elements, regardless of their position on the screen. This way, you do not have to search for them, as the application always displays them at the precise moment you need them. In addition to this, it offers you the possibility to apply your very own sounds to the background, such as music, sounds or ringtones. Moreover, you can choose different sounds for a number of actions, starting from the 'SMS received' alert and ending with the 'Voice message' alert or the 'Phone call' alarm. You can even set a different sound to every button on the screen, in order to emphasize its functionality. As far as creating your theme is concerned, ThemeEditor for SE P900 allows you to assign a title, author and copyright. An icon can also be included, which will be displayed at the top of the theme, as well as at the bottom. Next, you can start the actual customization process. For every element, you can preview the result, in order to modify it, if the result does not meet your preferences. You can start by choosing the desired color scheme. You can then choose the background image you want to use. Afterwards, you can add a status bar or a dialog title bar, which you can import from your computer. Each of these elements can be different for the flip closed mode and flip open mode, so you can easily customize any element, such as the menu bar, the drop-down menu, the list selection or the specific task buttons. In addition to this, you can also include short cut balloons in various sizes, colors and dimensions. You can customize any element that the phone displays, including the menu bar, the drop-down menu, the list selection or the specific task buttons, such as radio buttons. You can assign a different item to each action, starting with the 'SMS received' alert and ending with the 'Voice message' alert or the Reminder sound. Once you finished designing your theme, you can preview all the elements in a separate window, in order to modify any unfit element. ThemeEditor for SE P900 allows you to save the current theme for later use, as well as simply send it to your phone and enjoy it there! VITO ThemeEditor

What's New In?

Customize your Sony Ericsson P900 with this PC-based application. VITO ThemeEditor is easy-to-use, as it displays detailed information about any field in a separate pane. So you have a guide for using every feature at each moment. You can start creating a new theme by assigning a title, author and copyright. After that, you can begin the actual customization process. Every element you change or add can be previewed, so you can modify an item if the result does not meet your preferences. You can choose the desired color scheme to your theme. A background image can also be added, as well as a status bar or a dialog title bar, which you can import from your computer. Moreover, each of these elements can be different for the flip closed mode and flip open mode. Furthermore, the theme can also include short cut balloons, in various sizes, colors and dimensions. You can customize any element that the phone displays, including the menu bar, the drop-down menu, the list selection or the specific task buttons, such as radio buttons. VITO ThemeEditor for SE P900 also offers you the possibility to integrate a screensaver into your theme. In addition to this, you can also customize the sounds by browsing for the desired music files on your computer. This way, you can set your favorite song as your default ringtone or alarm sound. You can assign a different sound file to every action, starting with the 'SMS received' alert and ending with the 'Voice message' alert or the Reminder sound. Once you finished designing your theme, you can preview all the elements in a separate window, in order to modify any unfit item. With VITO ThemeEditor for SE P900, you can save the current theme for later use, as well as simply send it to your phone and enjoy it there!
