How much does it cost to buy a house in Alabama? Find out the average cost and state rankings, as well as average interest rates and mortgage calculators. We have also provided a list of current home for sale in Alabama.

Similar to the ranking of the best places to live in the United States, S&P/Case-Shiller's U.S. Cities, following the housing bubble and bust that began in 2005, has a different methodology for measuring values. When compared to past real-estate booms and busts like the late '80s, 2001, and 2006/07, the latest economic cycle of value growth in the U.S. has underperformed as compared to previous periods. This difference is due to relatively few homes selling during the housing-bubble years of the late '80s and the early '90s and in a relatively high number of

those that did sell, their prices saw significant increases. The reverse was true during the housing bubble between 2005 and 2007, as more homes sold than had in the past, however, their average value was lower than in the previous real-estate run-up. This was due in part to the mass exodus from the market of homeowners with large mortgage balances after the housing bubble burst. As a result, the average value across the country increased at an annual rate of 3.0% (compared to 6.5% in the mid 1990s and 5.9% in the late 1990s) in 2006. Years 1999 2005 2007 10% 3.0% -5.1% 12.4% 15.0%

The valuation model used by S&P/Case-Shiller includes both single- and multi-family buildings. The changes in a home's value are calculated by comparing the average house price in a given area to the average house price across all U.S. cities (including both single- and multi-family units) in
