I am so excited to see what this year brings and I hope you are as excited as I am. I would love to know you are excited for this year, let me know how you are going to use your new weight loss skills in the comments below. Like this: Related Post navigation 3 thoughts on “The year of celebrating life.” This is so good, I will be doing the same as soon as I finish reading this now. You’ve shared some really good advice on weight loss to help achieve what you’ve wanted to do. I’m also not surprised that you’ve achieved this, you seem to have a good handle on nutrition and health, it’s always good to have a goal in mind and reach it! It’s true that we all have our own motivation for starting this journey, mine was to gain control of my lifestyle and how I looked. And I am so glad that I have achieved that goal and I can’t wait to see what the future brings. I hope that you follow your own goals and on your journey to a healthy lifestyle ? Thank you so much for your comment, I am glad to hear that you have managed to get to a healthy lifestyle and that you are looking forward to the future as well. I have been really lucky with the support I have received so far and even when I haven’t been online it has helped me on my journey. I hope that you find that too ? Thank you so much for your post and your comment and for joining in on the celebration. I hope that you find that the best thing that comes out of this is that you’ve begun to take control of your life and that you are happier and healthier than ever. That’s what I hope to continue to be as I go on this journey. I would like to go back and read the other posts. Do you have a link for the archives? About Me Hi, my name is Sarah-Jane and I am a fitness lover

A: Here is a related question with the answer for your problem. Directory-protected zip file:. The code to add the password protection to ZIP archives is documented in PKZip FAQ (see the FAQ, section 5.2). You may either use PKZip or install unzip or any similar zip/unzip program in the directory mode (if it can handle password-protected archives). The code in the question has an error, since it is based on a short code commented out from the documentation (the one that I replaced with the bolded line). See the second bolded line of the code below, to add the password. If you don't want to use a zip/unzip program, you can download the one-line solution and run it yourself. import os from zipfile import ZipFile #add password protection to ZIP files in current directory using one-line solution from def add_password(zf, password, member=None, mode=664):
""Calculate the new archive header value, create the new archive file, write to the new archive file, close the old archive file, and change the end of central directory record to match the new header value. Adapted from "" # create new archive file zf.close() try: os.mkdir(zf.namelist()[0]) except OSError: pass f = open(zf.namelist()[0]+'/' +
