There are no other notable options provided by the app. Evaluation and conclusion Unfortunately, the tool doesn't integrate additional features, such as file removal. On the other hand, it carried out scan jobs swiftly in our tests, during which it had minimal impact on the overall performance of the machine, thanks to the fact that it needed low CPU and RAM to function normally. All in all, Ainvo Disk Explorer can give you a helpful hand for tracking down the largest files on the PC. However, if you're looking for richer options, you should resort to a disk management utility. [Read More...](#)

Description: The "IT Shadow Protector" is a program for efficient disk scanning and allows you to track down the largest files on the computer,

optimize hard drive space, find the applications that are taking up the most space and delete them right from your computer. It scans every file on your computer for duplicate and backup copies, sorts them according to the number of unused space, and finds the biggest files. You will find the log of the files found in the report with all the information such as: location, size, filename, date created, size, contents of the file, etc. It also enables you to free the space occupied by redundant, split, short or long files. You can even delete files right from the command prompt on the Windows command line. IT Shadow Protector is a program that will give you a complete overview of your hard disk and all the information you need to make use of it in order to free space. Description b7e8fdf5c8

Ainvo Disk Explorer Crack+ Product Key Free [Updated]
