Story Eastern Lands For centuries, the Elves have lived secluded lives, protecting the world from the power of darkness. The war between the races of man has been suppressed, but the peace of the world is troubled as its harmony teeters on the brink of destruction. Tornadoes of intense darkness burst forth in this world at seemingly arbitrary times, but the Elves are unable to find out why. The Elves fight with a weak spirit to prevent the enemies from achieving their ambitions, but they are unable to defeat them. As the Elves struggle with their own power, power-hungry dark powers are rising. Desperate to stop these forces, they send their generals, Hagen and Brandolf, to the Holy Kingdom to investigate. However, there are also enemies that want to consume their power, forming the Dementia Clan. Northern Lands The Elf's homeland, Midgard, has been occupied by the man-like beings known as men. Those men who control this land want to conquer all the lands of the world, surrounding Midgard in all directions. They order their generals, Erm, Lidan, and Eifgard to the western lands to investigate. Western Lands The Odin Clan has always served the High King. Unfortunately, the High King is like a child, and his vassals do not realize this and have become so corrupt that they no longer can realize their purpose. They do not want to listen to the High King or his vassals and have begun to appear everywhere.
