messagesExploring the Writer Within Menu On Writing Holiday Stories As usual, we had a busy week.

I wrote a letter of intent to my agent and I also got a partial of a letter to publishers this past week.

Our holiday weekend was spent with family and friends and didn't get a lot of writing done. There's a

lot going on in our house right now, so you can't tell me I did not get a lot of writing done! Here's

what I wrote last week... Hello! I'm sorry to bother you, but I wanted to thank you for taking the time

to read my blog. I'm excited to have the opportunity of writing to you! My name is Heather and I'm a

3rd year student at Boston University studying Creative Writing. I currently have two short stories of

about 2,000 words each, "Paradise" and "Chasing the Dream." I'm interested in writing books and

looking for a publisher. I'd be interested in hearing your thoughts or advice. I'm always looking for

new ideas, so if you have any ideas for other stories, please send me a link. You can email me at

heatherdolsch@gmail.com. I promise to respond to all emails in a timely manner. Thank you for

taking the time to read my email. Have a nice day! Heather I did not get a response last week. But in

a way, that was a good thing. It gave me time to think about what I had written and revise it as

needed. I do this when I send out my letter of intent to agents, though I've already been signed with

an agent. Here's what I wrote c9d1549cdd

"Ranno" is the name of our first-ever Icon. Ranno was born on the continent of Hydaea in a place called Noxious Melodia. His first goal in life was to become the best hunter and assassin in the land. However, Ranno found the dream of becoming an assassin was false. Because Hydaea and the entire world is in danger, he decides to embrace a new dream of being a hero.

Gameplay Overview Ranno is an offensive AP caster, and he is armed with his Dust bow. Because he fires arrows, he has an affinity for diamonds, where they are almost always found. Ranno uses his fast attacks to nullify defenses or destroy a target quickly. Ranno is a speedy character that can dodge attacks while also using his dash to get around the screen. His low health limit makes him easy to counter, so players must be careful about their attacks. Beware his frequent traps. Ranno is a poke-based character that can attack early as he does not need to be grouped up with other characters. "Left Stick + A" Ranno's special power - Calling Out. "Right Stick + A" Ranno's special power - Thorns. "Left Stick + B" Ranno's special power - With a Rose. "Right Stick + B" Ranno's special power - Diamonds. Ranno's special ability is his main way to inflict damage. He calls out at the cost of energy to attack enemies near the player. He can use his dash to clear out obstacles or find a safe spot to attack from. Ranno can also throw a rose at the cost of energy. The rose is similar to his shout, but it is only weak and deals no damage. Elements "Left Stick + A" Thorns. Thorns move the cursor back and attack low or high enemies. "Right Stick + A" Diamonds. Diamonds move the cursor back and deal damage to all enemies. "Left Stick + B" With a Rose. With a Rose can be used when Ranno is low on health. When activated, With a Rose will target the ground in front of the caster and fire a rose at it. When the rose hits the ground, it stays in the target's current position for 4 seconds and launches
