I have a class file called AccessController and another class file called AccountOperations. In AccessController I have an array named Dim ary as Variant ary = Array("insert","select","update","delete") In the AccountOperations class, I need to access this array from AccessController. Using Private Sub btn_paste_Click() I am able to use data from array as txt_paste.Text = ary(i) where i = 0 'ary(0) is empty string. But when I put it in Form.vb, it's giving error Private Sub btn_paste_Click() Dim AccessController As AccessController Set AccessController = New AccessController ary(i) = "insert" txt_paste.Text = AccessController.ary(i) End Sub A: I assume that txt_paste is a TextBox in your Form. You need to declare it as Public accessible. Public txt_paste As TextBox You can use this as txt_paste.Text = AccessController.ary(i) Another way is, declare txt_paste as Public and have a procedure inside your AccessController class. Like Sub GetData()
